Between Bath Spritz

Keep your pet smelling fresh, long after bathing! Use immediately following your pet’s bath or between baths.

Between Bath gives a new perspective on staying fresh! Soft, manageable fur is just a spritz away for long, lasting fragrance with lots of shine. The dye and alcohol FREE formula will also replenish moisture to your pets’ coat. Let the fragrance, odor neutralizers, conditioners and detangling agents do the dirty work and extend a few more days between baths.
